## Subject Index of Volume 148

---

**Acid electrolytes**  
electrochemical dissolution of nickel-42 in acid electrolytes, 79

**Additives**  
pressureless sintering of aluminium nitride: effect of concentration of additives and sintering conditions on properties, 307

**Alloys**  
grain boundary self-diffusion of  $^{51}\text{Cr}$  and  $^{59}\text{Fe}$  in austenitic Ni-Fe-Cr alloys, 279  
high temperature tensile properties of W-Re-ThO<sub>2</sub> alloys, 219  
isothermal coarsening of dendritic equiaxial grains in Al-15.6wt.%Cu alloy, 289  
mechanical properties of Al-SiC composites made by resistance sintering of mechanically alloyed powders, 189  
the fracture behavior of a directionally solidified Fe-Cr-Mn-C superalloy, 231  
the high temperature deformation of mechanically alloyed copper-based alloys, 163  
the role of the T<sub>1</sub> phase in the pre-exposure and hydrogen embrittlement of Al-Li-Cu alloys, 197

**Aluminium**  
creep of Al-3wt.%Mg as measured with the incremental loading method, 7  
fatigue fractography of particulate-SiC-reinforced Al(A356) cast alloy, 53  
influence of the precipitation state on the cold rolling texture in 8090 Al-Li material, 15  
isothermal coarsening of dendritic equiaxial grains in Al-15.6wt.%Cu alloy, 289  
mechanical properties of Al-SiC composites made by resistance sintering of mechanically alloyed powders, 189  
microstructural development of zirconia-dispersed ceramic in the NiO-Al<sub>2</sub>O<sub>3</sub>-ZrO<sub>2</sub> system, 145  
pressureless sintering of aluminium nitride: effect of concentration of additives and sintering conditions on properties, 307  
structural analysis of a TiAl<sub>3</sub>+ZrO<sub>2</sub> particulate composite, 115  
the corrosion and mechanical behaviours of aluminide, FeCrAlY and CoCrAlY coatings in aggressive environments, 131  
the role of the T<sub>1</sub> phase in the pre-exposure and hydrogen embrittlement of Al-Li-Cu alloys, 197

**Aluminium alloys**  
thermal expansion and dimensional stability of alumina fibre reinforced aluminium alloys, 85

**Aluminium nitride**  
pressureless sintering of aluminium nitride: effect of concentration of additives and sintering conditions on properties, 307

**Auger electron spectroscopy**  
X-ray photoelectron spectroscopy and Auger electron spectroscopy studies on the passivation behavior of plasma-nitrided low alloy steel in nitric acid, 241

**Carbon**  
fatigue fractography of particulate-SiC-reinforced Al(A356) cast alloy, 53  
influence of carbon and nitrogen on the creep properties of type 316 stainless steel at 873 K, 253  
mechanical properties of Al-SiC composites made by resistance sintering of mechanically alloyed powders, 189  
synthesis of TiC and (Ti,W)C in solvent metals, 319  
the fracture behavior of a directionally solidified Fe-Cr-Mn-C superalloy, 231

**Ceramic**  
microstructural development of zirconia-dispersed ceramic in the NiO-Al<sub>2</sub>O<sub>3</sub>-ZrO<sub>2</sub> system, 145

**Chromium**  
effect of thermal aging on the oxidation behaviour of 9wt.%Cr-1wt.%Mo steel, 299  
grain boundary self-diffusion of  $^{51}\text{Cr}$  and  $^{59}\text{Fe}$  in austenitic Ni-Fe-Cr alloys, 279  
high temperature low cycle fatigue properties of a thick-section 9wt.%Cr-1wt.%Mo ferritic steel forging, 267  
the corrosion and mechanical behaviours of aluminide, FeCrAlY and CoCrAlY coatings in aggressive environments, 131  
the fracture behavior of a directionally solidified Fe-Cr-Mn-C superalloy, 231

**Composites**  
fracture mechanisms of fiber-reinforced titanium alloy matrix composites.  
Part IV: Low cycle fatigue, 67

**Copper**  
isothermal coarsening of dendritic equiaxial grains in Al-15.6wt.%Cu alloy, 289  
the deformation of Cu-W laminates, 175  
the high temperature deformation of mechanically alloyed copper-based alloys, 163  
the role of the T<sub>1</sub> phase in the pre-exposure and hydrogen embrittlement of Al-Li-Cu alloys, 197

**Corrosion**  
the corrosion and mechanical behaviours of aluminide, FeCrAlY and CoCrAlY coatings in aggressive environments, 131

**Crack growth**  
predicting fatigue crack growth rates and threshold at low temperatures, 179

**Crack propagation**  
influence of microcompositional gradients on stress corrosion crack propagation, 1

**Crack tip**  
 crack tip-dislocation loop interactions, 155

**Creep**  
 creep and high temperature deformation of titanium aluminide alloys: influence of  $\alpha_2$  phase distribution and  $\beta_2$  phase decomposition, 33  
 creep of Al-3wt.%Mg as measured with the incremental loading method, 7  
 influence of carbon and nitrogen on the creep properties of type 316 stainless steel at 873 K, 253

**Deformation**  
 the deformation of Cu-W laminates, 175  
 the high temperature deformation of mechanically alloyed copper-based alloys, 163

**Dendrite spacing**  
 primary dendrite spacing in constrained solidification, 141

**Dimensional stability**  
 thermal expansion and dimensional stability of alumina fibre reinforced aluminium alloys, 85

**Dislocation loop**  
 crack tip-dislocation loop interactions, 155

**Elastic interaction**  
 crack tip-dislocation loop interactions, 155

**Electrochemical dissolution**  
 electrochemical dissolution of nickel-42 in acid electrolytes, 79

**Fatigue**  
 Predicting fatigue crack growth rates and threshold at low temperatures, 179

**Fatigue fractography**  
 fatigue fractography of particulate-SiC-reinforced Al(A356) cast alloy, 53

**Ferrite**  
 an empirical model to predict the transformation of  $\delta$ -ferrite in a niobium-stabilized austenitic weld metal under non-isothermal conditions, 261  
 high temperature low cycle fatigue properties of a thick-section 9wt.%Cr-1wt.%Mo ferritic steel forging, 267

**Flow mechanisms**  
 flow mechanisms in high pressure gas atomization, 101

**Fourier spectrum**  
 analysis of the intergranular fracture surface by the Fourier spectrum method, 45

**Fracture**  
 the fracture behavior of a directionally solidified Fe-Cr-Mn-C superalloy, 231

**Fracture mechanisms**  
 fracture mechanisms of fiber-reinforced titanium alloy matrix composites  
 Part IV: Low cycle fatigue, 67

**High pressure gas atomization**  
 flow mechanisms in high pressure gas atomization, 101

**High temperature deformation**  
 creep and high temperature deformation of titanium aluminide alloys: influence of  $\alpha_2$  phase distribution and  $\beta_2$  phase decomposition, 33

**Hydrogen**  
 effects of phosphorus segregated at grain boundaries on stress corrosion crack initiation and propagation of rotor steel in boiling 40wt.% NaOH solution, 93

**Incremental loading**  
 creep of Al-3wt.%Mg as measured with the incremental loading method, 7

**Intergranular fracture surface**  
 analysis of the intergranular fracture surface by the Fourier spectrum method, 45

**Iron**  
 grain boundary self-diffusion of  $^{51}\text{Cr}$  and  $^{59}\text{Fe}$  in austenitic Ni-Fe-Cr alloys, 279  
 the corrosion and mechanical behaviours of aluminide, FeCrAlY and CoCrAlY coatings in aggressive environments, 131  
 the fracture behavior of a directionally solidified Fe-Cr-Mn-C superalloy, 231  
 X-ray and  $^{57}\text{Fe}$  Mössbauer study of sputtered Fe-Zn alloys, 123

**Laminates**  
 the deformation of Cu-W laminates, 175

**Lithium**  
 influence of the precipitation state on the cold rolling texture in 8090 Al-Li material, 15  
 the role of the  $T_1$  phase in the pre-exposure and hydrogen embrittlement of Al-Li-Cu alloys, 197

**Low cycle fatigue**  
 fracture mechanisms of fiber-reinforced titanium alloy matrix composites  
 Part IV: Low cycle fatigue, 67

**Magnesium**  
 creep of Al-3wt.%Mg as measured with the incremental loading method, 7

**Manganese**  
 the fracture behavior of a directionally solidified Fe-Cr-Mn-C superalloy, 231

**Mechanical behaviour**  
 the corrosion and mechanical behaviours of aluminide, FeCrAlY and CoCrAlY coatings in aggressive environments, 131

**Metals**  
 synthesis of TiC and (Ti,W)C in solvent metals, 319

**Microcompositional gradients**  
 influence of microcompositional gradients on stress corrosion crack propagation, 1

**Microstructural development**  
 microstructural development of zirconia-dispersed ceramic in the NiO-Al<sub>2</sub>O<sub>3</sub>-ZrO<sub>2</sub> system, 145

**Molybdenum**  
 effect of thermal aging on the oxidation behaviour of 9wt.%Cr-1wt.%Mo steel, 299  
 high temperature low cycle fatigue properties of a thick-section 9wt.%Cr-1wt.%Mo ferritic steel forging, 267

**Mössbauer study**  
 X-ray and  $^{57}\text{Fe}$  Mössbauer study of sputtered Fe-Zn alloys, 123

**Nickel**  
 electrochemical dissolution of nickel-42 in acid electrolytes, 79  
 grain boundary self-diffusion of  $^{51}\text{Cr}$  and  $^{59}\text{Fe}$  in austenitic Ni-Fe-Cr alloys, 279  
 microstructural development of zirconia-dispersed ceramic in the NiO-Al<sub>2</sub>O<sub>3</sub>-ZrO<sub>2</sub> system, 145

**Niobium**  
an empirical model to predict the transformation of  $\delta$ -ferrite in a niobium-stabilized austenitic weld metal under non-isothermal conditions, 261

**Nitrogen**  
influence of carbon and nitrogen on the creep properties of type 316 stainless steel at 873 K, 253

**Oxidation**  
effect of thermal aging on the oxidation behaviour of 9wt.%Cr-1wt.%Mo steel, 299

**Oxygen**  
effects of phosphorus segregated at grain boundaries on stress corrosion crack initiation and propagation of rotor steel in boiling 40wt.% NaOH solution, 93  
high temperature tensile properties of W-Re-ThO<sub>2</sub> alloys, 219  
microstructural development of zirconia-dispersed ceramic in the NiO-Al<sub>2</sub>O<sub>3</sub>-ZrO<sub>2</sub> system, 145  
structural analysis of a TiAl<sub>3</sub>+ZrO<sub>2</sub> particulate composite, 115

**Particulate composites**  
structural analysis of a TiAl<sub>3</sub>+ZrO<sub>2</sub> particulate composite, 115

**Passivation**  
X-ray photoelectron spectroscopy and Auger electron spectroscopy studies on the passivation behavior of plasma-nitrided low alloy steel in nitric acid, 241

**Phase decomposition**  
creep and high temperature deformation of titanium aluminide alloys: influence of  $\alpha_2$  phase distribution and  $\beta_2$  phase decomposition, 33

**Phase distribution**  
creep and high temperature deformation of titanium aluminide alloys: influence of  $\alpha_2$  phase distribution and  $\beta_2$  phase decomposition, 33

**Phosphorus**  
effects of phosphorus segregated at grain boundaries on stress corrosion crack initiation and propagation of rotor steel in boiling 40wt.% NaOH solution, 93

**Plasma nitriding**  
X-ray photoelectron spectroscopy and Auger electron spectroscopy studies on the passivation behavior of plasma-nitrided low alloy steel in nitric acid, 241

**Precipitation states**  
influence of the precipitation state on the cold rolling texture in 8090 Al-Li material, 15

**Residual strain**  
residual strain in a fusion reactor first-wall component subjected to thermal fatigue, 211

**Resistance sintering**  
mechanical properties of Al-SiC composites made by resistance sintering of mechanically alloyed powders, 189

**Rhenium**  
high temperature tensile properties of W-Re-ThO<sub>2</sub> alloys, 219

**Sapphire single crystals**  
shock deformation of sapphire single crystals, 25

**Shock deformation**  
shock deformation of sapphire single crystals, 25

**Silicon**  
fatigue fractography of particulate-SiC-reinforced Al(A356) cast alloy, 53  
mechanical properties of Al-SiC composites made by resistance sintering of mechanically alloyed powders, 189

**Sintering**  
pressureless sintering of aluminium nitride: effect of concentration of additives and sintering conditions on properties, 307

**Sodium**  
effects of phosphorus segregated at grain boundaries on stress corrosion crack initiation and propagation of rotor steel in boiling 40wt.% NaOH solution, 93

**Solidification**  
primary dendrite spacing in constrained solidification, 141

**Solvents**  
synthesis of TiC and (Ti,W)C in solvent metals, 319

**Steel**  
effect of thermal aging on the oxidation behaviour of 9wt.%Cr-1wt.%Mo steel, 299  
high temperature low cycle fatigue properties of a thick-section 9wt.%Cr-1wt.%Mo ferritic steel forging, 267  
influence of carbon and nitrogen on the creep properties of type 316 stainless steel at 873 K, 253  
X-ray photoelectron spectroscopy and Auger electron spectroscopy studies on the passivation behavior of plasma-nitrided low alloy steel in nitric acid, 241

**Stress corrosion crack initiate**  
effects of phosphorus segregated at grain boundaries on stress corrosion crack initiation and propagation of rotor steel in boiling 40wt.% NaOH solution, 93

**Thermal expansion**  
thermal expansion and dimensional stability of alumina fibre reinforced aluminium alloys, 85

**Thermal fatigue**  
residual strain in a fusion reactor first-wall component subjected to thermal fatigue, 211

**Thorium**  
high temperature tensile properties of W-Re-ThO<sub>2</sub> alloys, 219

**Titanium**  
fracture mechanisms of fiber-reinforced titanium alloy matrix composites  
Part IV: Low cycle fatigue, 67  
structural analysis of a TiAl<sub>3</sub>+ZrO<sub>2</sub> particulate composite, 115  
synthesis of TiC and (Ti,W)C in solvent metals, 319

**Titanium aluminide alloys**  
creep and high temperature deformation of titanium aluminide alloys: influence of  $\alpha_2$  phase distribution and  $\beta_2$  phase decomposition, 33

**Tungsten**  
high temperature tensile properties of W-Re-ThO<sub>2</sub> alloys, 219  
synthesis of TiC and (Ti,W)C in solvent metals, 319  
the deformation of Cu-W laminates, 175

**X-ray photoelectron spectroscopy**  
X-ray photoelectron spectroscopy and Auger electron

spectroscopy studies on the passivation behavior of plasma-nitrided low alloy steel in nitric acid, 241

**Yttrium**

the corrosion and mechanical behaviours of aluminide, FeCrAlY and CoCrAlY coatings in aggressive environments, 131

**Zinc**

X-ray and  $^{57}\text{Fe}$  Mössbauer study of sputtered Fe-Zn alloys, 123

**Zirconium**

microstructural development of zirconia-dispersed ceramic in the  $\text{NiO}-\text{Al}_2\text{O}_3-\text{ZrO}_2$  system, 145

structural analysis of a  $\text{TiAl}_3+\text{ZrO}_2$  particulate composite, 115
